PeoplePulse AI

Employee Attrition Root-Cause Intelligence & Retention Report

Integrated Workforce Analytics • Statistical Root-Cause Analysis • Scenario Modeling

REPORT SPECIFICATIONS & METADATA

Generation Date:	October 28, 2026
Dataset Scope:	1,150 Analyzed Employee Records (Active Snapshot)
Current Filter Scope:	All Organizational Units
Overall Attrition Baseline:	22.5% (259 separations / 1150 headcount)
Replacement Cost Impact:	$14.78M Estimated Annualized Cost
Data Nature:	Synthetic demonstration dataset calibrated to enterprise HR benchmarks

EXECUTIVE INTEL BRIEFING

- System Purpose: This audit synthesizes organizational friction metrics across workload, overtime, compensation, employee engagement, supervisory coaching, and training participation to isolate factors associated with employee attrition.
- Analytical Method: Statistical group comparisons (Odds Ratios, relative differences %, and Pearson correlation) provide transparent, defensible indicators without opaque black-box machine learning assertions.
- Evidence-Based Priority: High overtime (>12 hrs/wk) and workload compression (>=7.5/10) emerge as primary turnover multipliers, particularly across operational frontline units.
- Actionable Interventions: Includes prioritized department-level recommendations and scenario simulations quantifying potential exit reductions and net financial retention ROI.

1. Executive Overview & Key Workforce Metrics

A consolidated snapshot of active workforce stability, attrition rates, and financial turnover exposure.

TOTAL HEADCOUNT

1,150 FTEs

Active census size

OVERALL ATTRITION RATE

22.5%

259 recorded exits

EST. REPLACEMENT COST

$14.78M

$57,066 / exit

AVG EMPLOYEE TENURE

3.5 Years

42.1 months mean

AVG WEEKLY OVERTIME

11.3 hrs

Per employee / week

AVG ENGAGEMENT SCORE

6.9 / 10

Across active staff

Department Attrition & Organizational Pressure Comparison

Department	Total	Exits	Attrition %	Avg OT	Workload	Engagement	Avg Salary	High Risk
Sales	236	89	**37.7%**	14.6 hrs	8/10	6.4/10	$8,272	**133**
Customer Support	223	81	**36.3%**	12.6 hrs	7.6/10	6.8/10	$5,252	**99**
Operations	85	14	**16.5%**	10.3 hrs	7.1/10	7/10	$6,318	**26**
Finance	75	12	**16%**	10.2 hrs	7.1/10	6.9/10	$8,233	**22**
Product	77	10	**13%**	8.4 hrs	6.7/10	7.3/10	$9,536	**11**
Engineering	266	34	**12.8%**	10.9 hrs	7.1/10	7/10	$10,588	**77**
Marketing	116	12	**10.3%**	8.8 hrs	6.6/10	7.2/10	$7,648	**21**
Human Resources	72	7	**9.7%**	7.1 hrs	6.4/10	7.6/10	$6,901	**14**

KEY OBSERVATIONS FROM DEPARTMENT CENSUS

- Highest Attrition Velocity: Sales records 37.7% attrition, substantially above organizational benchmark.
- Overtime Correlation: Departments with weekly overtime exceeding 9 hrs exhibit turnover rates ~2.2x higher than normalized units.
- At-Risk Headcount: 403 current employees display behavioral risk markers warranting proactive retention check-ins.

2. Root-Cause Intelligence & Factor Analysis

Comparing separating personnel versus retained personnel across core workplace metrics with statistical evidence metrics.

Workforce Factor	Category	Stayed Mean	Left Mean	Variance %	Odds Ratio	Correlation	Evidence
Employee Engagement Score	Culture & Engagement	7.2 /10	5.9 /10	**-18.5%**	**11.4x**	-0.418	**High**
Overtime Hours	Workload	9.9 hrs/week	15.9 hrs/week	**+59.8%**	**8.23x**	0.457	**High**
Workload Pressure Score	Workload	6.9 /10	8.4 /10	**+20.6%**	**6.9x**	0.445	**High**
Annual Absenteeism Days	Culture & Engagement	7.4 days/yr	10.4 days/yr	**+41.1%**	**5.82x**	0.383	**High**
Training & Upskilling Hours	Development	23.5 hrs/yr	18 hrs/yr	**-23.6%**	**2.91x**	-0.207	**High**
Monthly Base Compensation	Compensation	8153.3 $/mo	7521.4 $/mo	**-7.8%**	**2.06x**	-0.111	**Moderate**
Manager Support Score	Management	6.3 /10	5.9 /10	**-6.2%**	**1.6x**	-0.09	**Moderate**
Months Since Last Promotion	Development	17.5 months	18.3 months	**+4.7%**	**1.26x**	0.026	**Emerging**

Key Factor Interpretations & Organizational Context

Employee Engagement Score (Culture & Engagement) — Evidence: High

Departing employees averaged 18.5% lower engagement before exit. Critical disengagement (<=4.5) indicates 11.4x higher turnover risk.

Recommended Action: Implement bi-weekly pulse check-ins, recognition ceremonies, and structured anonymous feedback channels.

Overtime Hours (Workload) — Evidence: High

Employees who left logged +59.8% overtime hours. Employees exceeding 12 weekly overtime hours exhibit an Odds Ratio of 8.23x for attrition.

Recommended Action: Institute strict overtime caps, conduct workload rebalancing sprints, and evaluate resource headcounts in affected units.

Workload Pressure Score (Workload) — Evidence: High

Leavers reported a +20.6% higher workload stress index. Elevated workload (>= 7.5/10) is linked to a 6.9x higher likelihood of resignation.

Recommended Action: Audit process bottlenecks, automate repetitive tasks, and set quarterly capacity planning guards.

Annual Absenteeism Days (Culture & Engagement) — Evidence: High

Leavers logged +41.1% more absent days. Absenteeism >= 10 days often acts as an early warning proxy for chronic burnout.

Recommended Action: Deploy proactive wellness resources, mental health day allowances, and supportive return-to-work check-ins.

3. Prioritized Retention Action Plan

Evidence-grounded managerial interventions mapped to identified turnover drivers and monitored KPIs.

CRITICAL

REC-01: Cap Overtime and Rebalance High-Capacity Teams

Finding: Departing personnel averaged 15.9 hrs/wk overtime (+59.8% vs retained staff).

Intervention: Enforce a 10-hour maximum weekly overtime cap, mandate comp-time off, and evaluate temporary contract relief or redistributed sprint targets.

Target Group: Sales, Customer Support, Operations

KPI to Track: Weekly Overtime Hours & Attrition Rate in Tier-1 Teams **Est. Impact: 15% - 25% turnover reduction in high-burnout roles**

CRITICAL

REC-02: Deploy Retention Taskforce for Sales

Finding: Sales exhibits highest attrition (37.7%), with 133 active employees at elevated risk.

Intervention: Conduct confidential 1-on-1 retention stay-interviews with all senior and mid-level personnel to uncover friction points.

Target Group: Sales Department

KPI to Track: Sales Monthly Attrition Rate & Workload Score **Est. Impact: 18% - 30% reduction in departmental churn**

HIGH

REC-03: Managerial Coaching & People Leadership Enablement

Finding: Leavers evaluated manager support at 5.9/10 (-6.2% deficit vs stayed cohort).

Intervention: Mandate managerial empathy and feedback coaching workshops, establish standardized 1-on-1 meeting cadences.

Target Group: Frontline People Managers across all technical & operational groups

KPI to Track: Quarterly Manager Support Pulse Score & Team Retention **Est. Impact: 10% - 15% overall attrition mitigation**

HIGH

REC-04: Formalize Career Pathways & Promotion Transparency

Finding: Separated employees experienced an average of 18.3 months without advancement.

Intervention: Publish clear competency grids, introduce intermediate senior/lead grade milestones, and establish semi-annual promotion reviews.

Target Group: Employees with 24-48 months tenure without recent role change

KPI to Track: Median Months Between Promotions & Mid-Tenure Churn **Est. Impact: 12% - 20% retention lift in 2-4 year tenure cohorts**

MEDIUM

REC-05: Expanded L&D Stipends and Protected Learning Hours

Finding: Departing personnel participated in only 18 training hrs/yr compared to 23.5 hrs for retained peers.

Intervention: Allocate 4 hours per month of protected learning time, sponsored industry certification budgets, and peer technical academies.

Target Group: All individual contributors with <20 annual training hours

KPI to Track: Annual Training Hours per FTE & Employee Engagement **Est. Impact: 8% - 14% improvement in employee sentiment & loyalty**

4. Scenario Simulation & Responsible AI Framework

Hypothetical Retention Scenario Analysis

Parameters Tested: Overtime -0%, Workload -0%, Training +0 hrs, Engagement +0%, Target: All

Metric	Baseline Status	Simulated Scenario	Net Delta
Projected Annual Separations	259 Exits	434 Exits	-0 Exits Avoided
Organizational Attrition Rate	22.5%	37.7%	--15.2%
Turnover Financial Impact	$14780k	$24767k	+$0k Saved
Estimated Program Investment	$0	$0k	Net ROI: +$0k

HR Ethics, Governance & Responsible AI Disclaimers

CRITICAL ETHICAL GUIDELINES & BOUNDARIES FOR USE

1. Correlation vs. Causation: Observed statistical relationships between variables (e.g., overtime, workload, compensation) and turnover establish association rather than definitive individual causality. Organizational context must always guide interpretation.
2. No Punitive / Disciplinary Use: Risk scores and predictive markers MUST NEVER be used as the basis for disciplinary action, termination, compensation penalties, or denial of advancement opportunities.
3. Constructive Support Only: Insights are engineered strictly to empower systemic organizational enhancements—such as workload balancing, leadership coaching, and career development support.
4. Anonymity & Privacy: Individual employee identifiers are anonymized. Sensitive protected characteristics (race, gender, religion, family status) are strictly excluded from predictive calculations.
5. Model Limitations: Simulation outcomes represent illustrative scenario estimates rather than guaranteed operational forecasts. Actual workforce outcomes depend on broader macroeconomic conditions and managerial execution.
