Reason for Decision (RULE 9 — Customer Advocacy Appreciation)

Positive customer experience and praise triggers an automated personalized thank-you response from Customer Success.

Why did the agent make this decision?

Explainable AI (XAI) transparent policy evaluation & signal attribution

The AI agent analyzed the incoming communication and classified the primary intent as Positive Feedback (Confidence: 98%), identifying key signals such as "great service", "excellent service", "arrived earlier than expected". Concurrently, the sentiment analyzer measured a positive emotional polarity (+1.00) highlighting customer satisfaction, while the urgency detector determined an standard response SLA (Low urgency).

Applying Enterprise Routing Policy [RULE 9 — Customer Advocacy Appreciation], the decision engine mapped this tri-dimensional signature (Intent + Sentiment + Urgency) to Customer Success with LOW Priority. Because this scenario matches governance criteria for operational escalation and human oversight, routing was executed with deterministic policy auditability.

DIMENSION 1: INTENT ATTRIBUTION

Matched primary intent **Positive Feedback** with 98% certainty via signals:

`"great service"` `"excellent service"` `"arrived earlier than expected"` `"smooth checkout"` `"excellent"`

DIMENSION 2: SENTIMENT WEIGHTING

Calculated customer sentiment as **Positive** (Polarity: +1.00).

`+ thank you` `+ excellent` `+ great` `+ perfect`

DIMENSION 3: URGENCY MATRIX

Determined **Low Urgency** triggering **LOW** SLA tier.

`"standard business SLA (no urgency triggers detected)"`

Ready to Send (Zero-Touch)

Dear Olivia Taylor,

Thank you so much for taking the time to share your wonderful feedback regarding "Great service and quick delivery"!

We are thrilled to hear that your experience with our team met your expectations. Delivering fast, seamless,

and reliable service is our top priority, and knowing that your order arrived promptly and in perfect condition truly makes our day.

We have shared your kind compliments with our fulfillment and support teams. If you ever need anything else or have questions in the future, please don't hesitate to reach out.

Warmest regards,
The Customer Success Team
